TERMS OF ACCEPTANCE

When a patient seeks Chiropractic health care and when a Chiropractor accepts a patient for such care, it is essential that they are both seeking and working for the same goals.

Chiropractic has only one goal. It is, therefore, important that the patient understands the goal and the means and methods that will be used to attain it. In this way, there will be no confusion, misunderstanding, nor disappointment.

Patients usually are only interested in getting rid of whatever ailment or condition that is bothering them. This, however, is **not** the goal of the Chiropractor.

The purpose of Chiropractic is to restore and maintain the mechanical integrity of the spinal cord and its nerve roots. These vital nerve pathways are housed in and protected by the bones of the spine. Tiny misalignments of the vertebrae or bones of the spine which interfere with the function of these nerve pathways are called **SUBLUXATIONS.** They come from many causes and prevent various organs and glands from working properly.

By means of a Chiropractic adjustment, **SUBLUXATIONS** are corrected, thus restoring normal nerve function. The goal of chiropractic is too correct **vertebral subluxations** for the purpose of restoring the proper transmission of nerve energy over the nerve pathways, so that every part of the body may have a proper nerve supply at all times. This allows the innate healing ability of the body to work at maximum efficiency.

With proper nerve supply, health improves. Often, symptoms clear up; sometimes quickly- sometimes slowly- sometimes only partially- or not at all. Regardless of what disease a patient may or may not have, a Chiropractor does not offer to cure it, treat it, or offer advice regarding it. The only goal of Chiropractic is to allow the body to better express its own innate health potential. The only method used is the correction of the **vertebral subluxation.**

PLEASE BE AWARE THAT BY SIGNING YOUR NAME ON THIS FORM, YOU AGREE TO FOLLOW ALL INSTRUCTIONS THE DOCTOR GIVES YOU IN ORDER TO AFFECT THE GREATEST RECOVERY THAT IS POSSIBLE.

MUTUAL COOPERATION BETWEEN YOU AND THE DOCTOR IS A VERY NECESSARY PART OF YOUR RETURN TO GOOD HEALTH!!!

Informed Consent to Chiropractic Treatment

Bakersfield Family Chiropractic

Bakersfield, CA 93309

Dr. William E. Perry & Dr. Stephanie M. Perry

As with any healthcare procedure there are certain complications which may arise during chiropractic manipulation and therapy. Doctors of Chiropractic are required to advise patients that there are risks associated with such treatment. In particular you should note:

1.) Some patients may experience some stiffness or soreness following the first few days of treatment.
2.) Some types of manipulation have been associated with injuries to the arteries of the neck leading or contributing to serious complications including stroke. This occurrence is exceptionally rare and remote. However, you are being informed of the possibility regardless of the extreme remote chance.
3.) I will make every effort to screen for any contraindications to care; however, if you have a condition that would otherwise not come to my attention, it is your responsibility to inform me.
4.) Other complications may include fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns.

The probabilities of these complications are rare and generally result from some underlying weakness of the bone or tissue which I check for during the history, examination, and x-ray (when warranted).

I acknowledge I have had the opportunity to discuss the associated risks as well as the nature and purpose of treatment with my chiropractor.

I consent to the chiropractic treatments offered or recommended to me by my chiropractor, including spinal manipulation. I intend this consent to apply to all my present and future chiropractic care.
